

ANIMALITY

Centaurus Foundation

CHANGE LIVES FOR GOOD
ANIMALS MATTER

In Poland alone there are **12,34 million**
dogs and cats of which 8%
or about 950 thousand are homeless
animals.

Together, let's create a better life for more than just Pets around the world - helping is easier than you think!

INITIATOR: CENTAURUS FOUNDATION

2.994
rescued horses

989.000
Donors

8 countries,
in which we operate

for 17 years
we've been helping
animals

We are **defenders** and **friends** of all animals (both small and large, all around the world). We started everything in Poland over 17 years ago.

Every day, **we help many animals**, often saving their lives - we believe that even small actions can make a difference.

We share knowledge, teach proper attitudes, and educate so that our planet can be a space where humans and animals coexist harmoniously.

We operate according to the ideas : #ZEROWASTE
#SECONDLIFETHINGS #ANIMALS LIVES MATTER

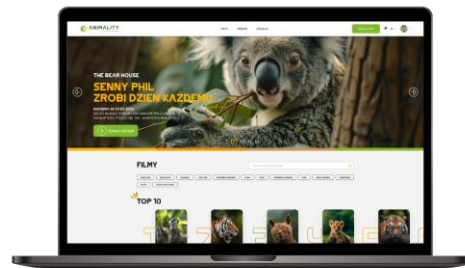

ANIMALITY VISION

Animality will be a global community of people united by a love for animals and a desire to take action on their behalf. At Centaurus Foundation, after many years of helping, we have felt that our work to save animals is never-ending—only education can truly change the world FOR GOOD.

Animality will be an online platform—a **space for thoughtful entertainment and conscious education**. The time spent online can be transformed into valuable eco-friendly and animal-friendly education.

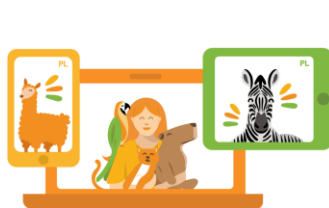

We want to create an international group of “Helpers” who, through personal commitment and a small monthly donation (2-3 euros), will help establish a funding system for a large number of shelters worldwide. The funds raised through this collaboration will be used to support Happy Animal Homes, which are vetted centers across all continents.

At Animality, we believe that **together we can achieve more** for the benefit of animals and our community.

See what our platform will look like:
here is the link to the mockup

HOW WILL ANIMALITY WORK?

The central figure of the project is the person who helps animals, manages a shelter, and deals with challenges. They do an excellent job, and we want to assist them.

- We engage children, parents, and individuals in helping animals by offering an educational program and opportunities for personal involvement. Everyone can, but doesn't have to, contribute through a subscription donation of **2 euros per month**.

We create educational content (videos, blogs, e-learning, educational games) for the Animity platform.

- We allocate donation funds to support shelters worldwide, to build **Happy Animal Homes**, and to advance Animity's initiatives.

At Happy Animal Homes, we organize:

- Educational program (A Day at the Animal Home)
- Volunteering program for individuals
- Summer Camp in the Mud for children from orphanages
- LIVE ANIMAL CARE - adoption program

WHO IS ANIMALITY FOR?

CHILDREN

We created Animity with **families and children** in mind, as it is the youngest who shape the future of our world. We want to offer them engaging and educational materials about animals that will help pull kids away from screens and encourage them to explore the natural world.

Through our platform and family-oriented projects, **children will learn empathy and responsibility for animals, while parents will have the opportunity to spend meaningful time with their children.**

Joint discovery and learning strengthen family bonds and create unforgettable memories.

WHAT WILL CHILDREN LEARN?

Empathy

In the world around us, there are countless animals in need of help (hungry cats, birds in winter, abandoned or mistreated dogs, wild and farm animals, etc.). Organizations cannot handle the sheer number of lives in need, but the Animality community can. To help them, however, we first need to notice them. This is what we want to teach children—to "see" and feel. We believe that by doing so, they will also become better people.

Personal Culture

Fewer and fewer children understand the importance of yielding a seat on the bus to an elderly person, helping someone who has fallen off a bike, or simply saying please or thank you. Instead, they often think in terms of "I want" or "I expect." Animality will be a "space" where personal culture and manners will be of utmost importance.

Understanding Cultures and Religions, and Openness to Every Individual

A child in Animality will learn the beauty of how wonderfully different people can be. Through traveling and meeting others, they will broaden their knowledge of art, culture, and tradition. They will understand the importance of tolerance and recognize that all forms of extremism lead to conflict.

Creativity

ChatGPT replaces the work of programmers at a time when, just 10 years ago, being a programmer seemed like a profession of the future. What skills and traits will be impossible for artificial intelligence to learn? Creativity and the ability to think outside the box are the future for every child and for humanity. Children in Animality will develop their experiences in this direction.

Independence

By encouraging children to participate in the Animality project, we aim to teach them time management, problem-solving skills, and the ability to complete tasks. By taking care of animals, they will assume a level of responsibility (enough to challenge them without overwhelming them), which will help them handle daily life more effectively.

From Field to Table

With over 7 billion people on Earth and food shortages in many parts of the world, it's crucial to address how we produce and consume food. One hectare of land can feed 60 people with a plant-based diet, compared to just 2-3 meat-eaters. At Animality, we will teach not only plant cultivation but also excellent plant-based cooking, aiming to reduce the demand for livestock and ensure food for future generations. It can be both delicious and healthy!

WHO IS ANIMALITY FOR?

LONE

We are also creating **Animality** with the growing number of single individuals in mind.

We want to provide them with a space where they can find purpose and joy in life.

In Poland alone, **there are already 8 million single people**, and our initiative can help them find fulfillment by offering a sense of belonging and support.

Through Animality, **single individuals can form new relationships and friendships**, building a community based on shared interests and passions.

01_NETWORK OF HAPPY HOMES ANIMALS IN THE WORLD

ELEMENTS OF THE PROJECT

1

Happy Animal Homes: Animality starts by partnering with 30 animal shelters and sanctuaries worldwide (2024), with a goal of eventually supporting 200 centers globally.

Real Assistance: Ongoing support, with additional aid dependent on the viewership of content on the Animality platform.

Idea: To foster positive life attitudes and educate children (empathy, cooperation, and caring for nature).

Future: After establishing Educational Homes in Poland and Tuscany, we aim to build more in other parts of the world, engaging as many children and individuals as possible in helping animals.

PROGRAMME

2

Eco Education: International educational vacations supporting the creation of a wise society for the future.

Survival Skills: Learning how to handle problems and challenges (preparation for daily life).

Permaculture Farming and Cooking: Working in greenhouses, vegetable gardens, edible flower fields, and lavender fields.

Recurring Event: "Summer Camp in the Mud" at Happy Animal Homes around the world.

02_HOME OF HAPPY ANIMALS IN TOSCANIA

ELEMENTS OF THE PROJECT

1

Happy Animals Home in Tuscany – a permaculture farm with an animal sanctuary.

Sanctuary: An animal refuge in the heart of Tuscany (donkeys, alpacas, birds, dogs, cats, horses).

Permaculture Farming and Cooking: Working in the greenhouse, vegetable garden, orchard, edible flower fields, and lavender fields, with a #zerowaste approach.

Guest House with Kitchen: Discovering vegan Italian cuisine.

Volunteer/Guest Space: Combining Italian-style vacations (Renaissance art, slow travel) with “Summer Camp in the Mud” (active support for animals).

2

PROGRAMMES

Educational and Artistic: For families with children, children in need (from orphanages or foster families), schools, and institutions from Poland and Italy.

Volunteering: For single individuals.

Artistic Residencies: For art schools and high schools with art programs from Poland.

Recurring Event: “Summer Camp in the Mud” at Happy Animal Homes around the world.

03_HAPPY ARABIAN HORSES HOUSE DUSZNO

Project Ambassador: Marek Trela (long-time Director of the largest Arabian Horse Stud in Poland, located in Janów Podlaski, and a true friend of horses)

ELEMENTY PROJEKTU

1

- Sanctuary for Elderly Arabian Horses:** Care for 300-400 horses to ensure they can peacefully live out their lives in nature.
- Comprehensive Care:** Reports for owners and the possibility of visits.
- Spa and Clinic for Horses:** Top caretakers, 24/7 veterinary care, healthy feed.
- Location:** A space with its own pond, situated among the forests of the Gniezno Lake District, 1.15 hours from Poznań Airport.
- Safety:** 24/7 video surveillance of the area, care by experienced stable hands around the clock.

2

PROGRAMMES

- Educational:** For parents with children – fostering eco-friendly attitudes and horse care.
- Permaculture Farming and Cooking:** Work in the greenhouse, vegetable garden, and fields of edible flowers and lavender.
- Recurring Event:** “Summer Camp in the Mud” at Happy Animal Homes around the world.
- Restaurant:** Vegan dishes from field to table.

04_FOOTBALL, KIDS & ANIMALITY

“CHANGE A CHILD'S LIFE FOR GOOD”

ELEMENTS OF THE PROJECT

1

Subscription Donations: Footballers support children in need and animals through Animity.

Project Ambassadors: For example, Piotr Zieliński and footballers from Poland and Italy involved in promoting the idea of assistance.

Scope of Activities: The initiative targets children worldwide, starting with Poland and Italy.

Goal: The project aims to support children and build Happy Animal Homes around the world.

Project Expansion: Spain, France, Germany, England.

PROGRAMMES

2

For Children in Need: From orphanages, hospitals, difficult family situations, and foster families.

Recurring Event: “Summer Camp in the Mud” at Happy Animal Homes around the world (July-August).

First Edition: Summer 2025 in Poland and Tuscany.

Activities: 30% of Time: Animal Care (learning about animal habits, feeding, assisting veterinarians, maintaining cleanliness – all in a workshop format with caretakers). **30% of Time:** Healthy Eating (planting trees, creating personal gardens, learning about healthy nutrition). **40% of Time:** Educational and Recreational Activities (depending on the location and weather), including artistic workshops, sightseeing, sports activities, and swimming.

BENEFITS FOR THE ANIMAL ASYLUM

/ receives monthly funding (grant) for Animality - Animality measurably helps

/ does good by sharing his knowledge and experience - what he does every day

/ can count on the help of the community (volunteering, support) - people with similar sensitivity for Animality

KEY TERMS

Phase 0 - August 2024

We are actively helping Animality
we are launching the Animality website
we organize projects of Happy Animal Homes and Football&Kids
together we create video content (a total of 30 Content Creators from around the world)

Phase I - September 2024

we are launching a test platform for Poland
we are looking for Grantors for projects

Stage II - June 2025

our goal is to launch 2 Happy Animal Homes - Poland and Tuscany
vacations in the Dung for children from Children's Homes
assistance to 50 asylums from around the world

Phase III - October 2025

Implementation of a target platform with mobile applications for users, German-language version for DE,CH,AU countries; Italian version IT and English language version EN

**Our goal: to gain 500,000 registered Users and help
Tens of thousands of Animals in the World**

HOW CAN YOU GET INVOLVED IN THE PROJECT?

/ everyone can help regardless of race, age, wealth - you can do Good with a small Donation or put in more effort

/ become a Content Creator - record videos and share your experience and how you help

/ become an Animator - educate children and adults so that as few Animals as possible need help

The possibilities are endless, and TOGETHER we can do a lot.
